Unions Tasmania is pleased to host Health and Safety Representative (HSR) Conferences during WorkSafe Month. Combining a mixture of keynote speakers, panels and workshops, the conferences will focus on our mental and physical health and safety at work.

Entry is FREE but registration is essential. We encourage HSRs to speak to their employer about accessing paid time to attend. The Conference is open to elected HSRs and deputies as well as others that play an active role in health and safety at work such as WHS Committee members or union delegates.
